## 1 Animal theater

It is not always easy for actors, rehearsal and to coordinate performance times with the needs of their best friends and companions, their dogs. But dog owners in the ensemble not only organize joint

walks, but also mutual dog-sitting, which

leads to good friendships: This is how "Lina", cheerful Mixed breed lady from **Holger Teßmann** (seen as Patri-arch in "Nathan the Wise"), and "Molly", the wise Labrador lady of **Meike Anna Stock** (Helena in "A Summer Night") to explore Dillweißenstein. But a cozy evening on the sofa of

Holger Teßmann is also enjoyed: "The girls have felt so comfortable and spread out that I spent the evening her paws on a pillow On the sofa was no more space," he says smiling. # cleanpark in new splendor

**cleanpark**  
powered by **KÄRCHER**

The KÄRCHER self-service car wash "cleanpark" on the **Wilferdinger Höhe** completely renovated by new owner

Since May of this year, the Kärcher Cleanpark at Stuttgarter Straße 39 on Wilferdinger Höhe in Pforzheim has been under new ownership. The new owner, Carsten Bischoff, has been committed to completely renovating the facility and bringing it up to date both technically and visually.

The range of services offered by the new cleanpark self-service car wash is optimally tailored to the wishes and needs of customers. It features the latest high-pressure technology from the renowned

KÄRCHER specialists are on hand – quality and performance firsthand. The various cleaning programs can be easily adjusted using a dial in the individual wash bays, as can the wash duration. The latest, powerful KÄRCHER self-service vacuum cleaners are available for cleaning vehicle interiors.

Professional cleaning with KÄRCHER technology

Carsten Bischoff's KÄRCHER cleanpark offers everything you need for washing and caring for your vehicle yourself. The facility consists of five separate wash bays for cars and an additional outdoor wash bay for taller vehicles. "This is especially designed for cleaning mobile homes or vans, for example," emphasizes operator Bischoff.

In the individual wash bays, customers can choose between removing insects and dirt, a regular high-pressure wash, an intensive foam wash for paint care, subsequent foam rinsing, hot wax, and top care with demineralized water for spot-free drying. "Our special wheel cleaning program is also particularly popular."

Customers are often impressed by how quickly and effectively the rims are cleaned," explains Bischoff, who is often on-site and happy to provide customers with support and advice.

Environmental protection is also taken into account in the new KÄRCHER cleanpark: only biodegradable cleaning agents are used, and the drinking water-saving high-pressure technology conserves resources. Furthermore, any oil residues are filtered out of the water on-site using a separator. This allows environmental protection and vehicle care to be seamlessly combined.

A well-maintained vehicle is not only more fun to drive, but also its owner's best business card. And at the new cleanpark on Wilferdinger Höhe, loyalty is rewarded, as a special discount system also helps save money: When purchasing wash tokens worth €10 or more, customers receive a 10% discount in the form of one free token; when purchasing €20, they receive two free tokens, and so on. The cleanpark is open 24 hours a day, Monday to Saturday; the facility is closed on Sundays and public holidays.

Operator Carsten Bischoff is happy to support his customers.

The well-maintained complex offers a variety of Cleaning options.

The powerful self-service vacuum cleaners are very popular with car owners.
