

Why Your Soul Will Feel Soothed Reading 'Hip Hop in the Land of Ellsaby'?

The book "Hip Hop in the Land of Ellsaby" was born from a very personal reason. For many years, Isabelle Müller (the author of the book) lived in a small village in the state of Baden-Württemberg, where everyone knew each other. More than twenty years ago, the beloved dog of a little girl who lived right next to Isabelle's house suddenly passed

It was understandable that a cute animal died of old age. But what worried everyone was the little girl's mental state. From that moment on, she became depressed and seemed to have lost all joy in life.

Since there was very little suitable children's literature at the time on the themes of "farewell" or "death", Isabelle Müller decided to write a story herself to read to her daughter. "Hip Hop in the Land of Ellsaby" was born from such a soul-soothing desire. The first name "Isabelle" when read backwards is "Ellebasi" and the author changed it to "Ellsaby". According to Isabelle: "Soon after, when I read her the first adventure of Hip Hop, her sadness gradually subsided. I was happy to see her soap bubbles floating up high from time to time. I had achieved my goal of me".

The story revolves around the close friendship between a dog named Titus and a little flea named Hip Hop. One day, Titus, the guard dog, suddenly passed away. Hip Hop was determined to set out to find his deceased friend with the sole wish of meeting him one last time to say goodbye. Hearing about the land of Ellsaby, the chance to meet his best friend Titus came. After many attempts, Hip Hop finally found a way to get there, hiding in a soap bubble that was flying high and far to Ellsaby.

In the strange land of Ellsaby - a place where there is no sky, instead there are groups of bubbles that look like floating planets. All the animals are represented here after when they die. Is it true that here, thoughts and dreams have no limits, can the secret of life after death be hidden? Promised, "Hip Hop in the Land of Ellsaby" will be a magical book that is indispensable for anyone who believes in the power of love. Will Hip Hop be able to meet his best friend Titus again?

Author Isabelle Müller says: "I think it is important to introduce so-called "difficult topics" to children from an early age. Everyone, including children, has fears. The fear of the finiteness of life is probably the biggest fear. I believe that talking/reading about it is a good way to develop a sense of understanding that death is also a part of life. Anyone who learns to accept life in general, with its pleasant and unpleasant moments, will gain insight into the impermanence of life.

deadline

By integrating these topics into children's education, they are no longer taboo. Instead, they become a normal part of our existence. Only those who see life in its fullness can feel the infinity. And even if you sometimes have reasons to despair, never lose hope, because black is only black if you want to see it as black. This is my message in this book."

In 2001, Krone Publishing (Germany) published this story. Since then, Isabelle has often received letters from child therapists and bereavement support associations expressing their gratitude for the book "Hip Hop in the Land of Ellsaby" helping children to overcome grief in a delicate way. It is not only a support for those who have lost a beloved pet. It also brings comfort to children who are grieving the loss of loved ones.

On the occasion of International Children's Day (June 1), Ho Chi Minh City General Publishing House respectfully introduces to readers the publication "Hip Hop in the Land of Ellsaby" published in three languages (German - English - Vietnamese). The work is simple but very familiar through the gentle narration and vivid hand-drawn illustrations by Isabelle Müller herself and translated into Vietnamese by translator Truong Hong Quang. This will be a contribution

It is important to remove taboos on difficult topics in children's literature and help many children (both teenagers and some adults) who have lost a family member and can find healing in their souls. It is like an invisible hug that is very gentle, comforting the wounded soul, helping us to face the pain more gently, to find positive energy and meaning in life.
